651 E. Prescott, Salina, KS 67401
Medical Center ~ (785) 825-7251
Dental Center ~ (785) 826-9017

PATIENT CENTERED MEDICAL HOME

Salina Family Healthcare Center provides a whole family of services from pregnancy and newborn care to end-of-life care and everything in between. We provide around the clock access to medical care with same day appointments and extended office hours, as well as an on-call doctor when the office is closed. Our website allows access to your medical record and e-mail for your provider at any time. On-site Spanish interpreters and phone interpreters in any language break the language barrier to good health. Our sliding scale fees are based on your income and insurance and we do not deny access based on ability to pay or insurance status.

We use our electronic medical record for more than bookkeeping. The electronic information helps us identify patients who could benefit from specific health education, immunizations, disease management and mental health treatment. We also use this data to grade ourselves on the quality of care we provide and find ways we can improve the care and patient experience for all of our patients.

Salina Family Healthcare Center is your partner in health. Our providers are students of the art and science of medicine providing the latest and most up-to-date care possible. Most services can be found under our roof including medical, dental, mental health and substance abuse care. When necessary, we help coordinate the care you need with our community partners, including physicians and surgeons, therapists and other community-based providers. We keep in touch even when you are referred to an outside provider or get outside tests done so we can help you navigate the often complex world of medicine.

You are the most important part of your healthcare plan. Salina Family Healthcare Center believes that you will be more successful when you develop your own plan of care with our help and advice. We want you to reach your health goals and provide the support, tools and access to community resources necessary to follow your plan.

Your family at Salina Family Healthcare Center always strives to serve you better. We value your feedback and will ask for it regularly. Please let us know how we can better partner with you to improve your health.
